

VENNILA K M

Hosur, Tamil Nadu, India. | 6385909279 | vennilakm4@gmail.com | [LinkedIn](#) | [Github](#)

CAREER OBJECTIVE

Aspiring Data Science professional seeking an opportunity to apply skills in machine learning, data analysis, and bioinformatics to solve real-world problems. Eager to contribute to innovative projects while continuously enhancing technical expertise in AI and data driven decision-making. Committed to delivering impactful insights and supporting organizational growth through analytical thinking and problem-solving abilities.

EDUCATION

Master of Science - Data Science (5 Yrs Integrated) SASTRA Deemed University	2027 Thanjavur
Higher Secondary Education (XII) Sri Vijay Vidyalaya Matric Hr. Sec. School	2022 Hosur
Secondary Education (X) St. John Bosco Girls Hr. Sec. School	2020 Hosur

WORK EXPERIENCE

CornerCore AI AI Intern	Dec 2025 – Jan 2026
- Developed and evaluated machine learning models using Python on real-world datasets - Performed data preprocessing and collaborated with mentors to improve model performance	
InternsForge Pvt. Ltd. AI Intern	Jun 2025 – Aug 2025
- Built predictive models and conducted exploratory data analysis on structured datasets - Applied AI techniques to solve real-world problems through hands-on project work	
Titan Company IT Intern	May 2025
- Gained exposure to corporate IT operations and assisted in technical support tasks - Learned enterprise-level systems and IT service management practices	
BSeqCure (Industry Collaboration) Research Contributor	Dec 2025 - Present
- Contributed to human genome sequencing analysis using data science techniques - Supported research in genomic interpretation and biomedical insights	

IT Intern

- Assisted in employee access management, including account creation, modification, and deactivation processes.
- Worked with ARF forms and Active Human Review (AHR) activities, gaining exposure to corporate IT operations and access governance.

PROJECTS

Meta-Analysis of Transcriptomic Datasets

Academic Project

- Conducted meta-analysis on transcriptomic datasets to identify key immune gene profiles in *Bos taurus*
- Analysed signaling pathways contributing to cattle immune response and disease resistance
- Applied data science techniques for biological data interpretation
- Research paper published in Animal Genetics journal

**Construction of a Domain-Specific Knowledge Graph for LPMO Research
Using Machine Learning-Based Named Entity Recognition**

Academic Project

- Developing a domain-specific knowledge graph for LPMO research using Machine Learning-based Named Entity Recognition (NER).
- Extracting biological entities and relationships from scientific literature using NLP techniques.
- Building structured knowledge representation frameworks for bioinformatics research and data integration.

Authorship Attribution & Sentiment Analysis in Tamil Poems

Academic Project

- Developed models for authorship identification and sentiment prediction in Tamil text
- Utilized NLP techniques for feature extraction and classification • Collaborated on group project under faculty supervision

Human Genome Sequencing Analysis (BSeqCure Collaboration)

Research Project

- Worked on large-scale human genome sequencing datasets
- Applied machine learning techniques for genomic interpretation
- Contributed to deriving biomedical insights from complex biological data

SKILLS

-
- **Programming Languages:** Python, R, C, C++, SQL
 - **Data Visualization & Tools:** Tableau, Power BI, MATLAB
 - **Web Technologies:** HTML, JavaScript, CSS
 - **Platforms:** Windows, Linux, Android
 - **Additional Skills:** Machine Learning, Data Analysis, Neural Network, Deep learning, Problem Solving, Bioinformatics

Awards & Accomplishments

- Research paper published in **Animal Genetics** journal
- Delivered a flash talk and presented a poster on the research paper titled “*Meta-Analysis of Transcriptomic Datasets Reveals Key Immune Gene Profiles and Signaling Pathways in Bos taurus*” at the **ISCB/ECCB 2025** Conference, Liverpool, UK
- Developing a domain-specific knowledge graph using Machine Learning-based Named Entity Recognition (NER); abstract accepted for poster presentation at **ISMB 2026**
- Completed Deloitte Australia Data Analytics Job Simulation (Forage) – June 2025
- Certified in SQL for Data Science
- Captain, WICE Team (Secondary School)
- Captain, Junior Red Cross Club (Secondary School)
- Member, Data Science Club (2022–2023)
- Member, International Society for Computational Biology (2025–2026)
- Member, SysMod Community (Martin Luther University Halle-Wittenberg)
